XELTA *KoNXT*

Customised Single Use Assemblies For Fluid Transfer Application

XELTA KoNXT is a range of Single Use assemblies designed as per the process needs of the customer. The customized KoNXT assemblies are carefully designed with a high degree of process knowledge to eliminate operator error and reduce the risk of contamination, XELTA KoNXT Single Use Assemblies minimize process risk in sterile operations by employing proven flexible connections. Through XELTA KoNXT assemblies, we're able to provide maximum flexibility by allowing you to connect a wide variety of tube sizes and connectors into one easy solution. Optimized for single-use applications, XELTA KoNXT assemblies allow PharmNXT Biotech Team to create assemblies tailored to your specific requirements that result in reduced process risk. With wide extensive process knowledge of pharmaceutical and biopharmaceutical applications, XELTA KoNXT assures easy solutions to streamline your processes.

Offering

The XELTA KoNXT offers a wide range of configurations. Choose from wide range of connectors, tubes, clamps, etc from any supplier for configuring connections as per your process requirements.

Quality Assurance

The XELTA KoNXT is designed, developed, and manufactured in accordance with ISO 9001:2015 certified Quality Management System. They undergo extensive testing before shipping. We make sure our products are manufactured according to cGMP and are suitable for cleanroom process.

Support

PharmNXT Biotech supports users from the design to the execution phase of a new and existing production facility with the most comprehensive support program, that ensures the successful design, implementation, and validation of the manufacturing facility. PharmNXT Biotech offers end-to-end solutions for Pharmaceutical, Biopharmaceutical and Vaccine manufacturing.
